Usage

Fieldpiece Of Mind
When your tools work as smart as you do

Dual port manometer with industry exclusive pressure switch tester

◆ Gas, static, and differential pressure
◆ Easily calibrate any adjustable pressure switch
◆ Great for diagnosing furnace performance

NEW! Inspection Tool Bag

Page 1   Feb 27 2018

POP TOP

Quick release magnetic clasp

9"W x 11.5"H x 6"D

Model BG36
Tools Not Included

HVACR Inspection Tool Bag

The New BG36 Inspection Tool Bag is an easy to carry, over the shoulder bag with an easy to open pop top. The pop top protects tools from inclement weather, and from spilling out if dropped or knocked over. Plus it provides extra space for small tools and drill bits. The strong magnetic tray holds cabinet screws and washers so they're never lost.

Sectioned interior pockets keep everything organized. Zippered side pocket and large interior adjustable section protect meters from hand tools. Large open front pocket and expandable side pockets allow for additional storage. Sturdy weather protected base keeps bag standing upright.

BG36 Inspection Tool Bag

Distributor Cost (2pc)	$61.88	• Quick locking magnetic closure • Weather protected sturdy base
Suggested Trade	$99.00	• Isolated pockets for test instruments • Handy magnetic tray

Packaging

Example of Packaging

The packaging example for the SM480V SMAN™ Refrigerant Manifold and Micron Gauge includes the following panels:

SM480V — SMAN™ Refrigerant Manifold and Micron Gauge

Designed for Performance
Knowledge, power and experience are packed into the newly designed SMAN™ Refrigerant Manifolds. Years of feedback from A/C and refrigeration specialists is combined with Fieldpiece's laser focus on continuous improvement to bring you the toughest, most advanced digital refrigerant manifold on the market. From the extremely rugged overmold casing, reinforced hook, and hermetically sealed sight glass, to the wireless capabilities, data logging, and tightness test, the SM480V 4 port manifold is built so you can do your job easier, faster and better.

Connect Traditionally

The SM480V includes two Type K TC24 pipe temperature clamps, and an additional Type K thermocouple for live ODDB reading. Use by itself or connect directly to mobile device with Job Link App.

View Job Link® System Tools

Connect to Job Link App

Simplify your call with the Job Link System. View live wireless air and pipe temps directly on the SMAN screen. Add the SRS3 wireless scale and view your refrigerant usage on your SMAN.

See your measurements up to 350' away on your mobile device. Document your work and provide professional reports, including refrigerant weight usage, by simply connecting to the Job Link System app. Helps to reduce call-backs and increase profits.

Packed with Knowledge
The SM480V is designed to work the way you do with advanced features like data logging, system tightness test, direct connection to the Job Link App, and user customization.

Customizable
- Adjust auto power off duration
- Adjust back light duration
- Set high and low vacuum alarms
- Favorite frequently used refrigerants

Tightness Test
- Check for leaks after repairs or installations
- View pressure differential over time
- Timer tracks duration of test
- Temperature/pressure compensated to avoid false positives

Data Logging
- Stores up to 9 jobs internally
- Easy download via USB port
- Displays % free storage space before logging begins
- Logs up to 7 days (168 continuous hours)
  • Screen shuts down after three hours to save battery life
  • Program intervals between 1 sec and 2 min

Job Link® System Integration
- Live pipe and air temps with Job Link probes
- Monitor refrigerant weight directly on SMAN using SRS3 scale
- View measurements on SMAN and/or in Job Link App
- Direct 350' wireless range (no transmitter needed)

SRS3 Wireless Scale — **JL3RH** **JL3PC** (sold individually or in kits)

What's Included
- SM480V SMAN Refrigerant Manifold (4 Port)
- (2) TC24 Type K Pipe Clamp Thermocouples
- (1) ATA1 Type K Bead Thermocouple w/Clip
- (1) ANC11 Padded Drawstring Case
- (1) Year Warranty

SM480V **ANC11** **ATA1** **TC24**

SMAN™ Refrigerant Manifold and Micron Gauge
SM480V

Simply Strong
Years of knowledge and in-field use are the driving forces behind the SM480V's heavy duty construction. Extra rugged casing, reinforced hook, water resistance, and extra roomy padded hanging case ensure the latest SMAN manifolds withstand the rigors of field use.

Beefy Hook

Water Resistant (IP54)

Impact Resistant Case

3 Protected Thermocouple Jacks

Built-in Micron Gauge

Full System Snapshot

Easy, Long Range, Powerful
Take a full system snapshot quickly and easily with the JL3KH6 Charge and Air Test Kit. This kit consists of 2 pressure probes, 2 pipe clamps, and 2 psychrometers in a quick access padded case. All measurements can be sent up to 350' away directly to your mobile device with the Job Link™ app. Each tool is designed for agility and speed. The pressure probes fit into tight spaces. The pipe clamps use the new Rapid Rail™ sensor design delivering accuracy, speed, and agility, even on the most awkward pipe configurations. The psychrometers' flexible narrow probes and configurable magnet make it easy to measure supply plenums, ducts, and elevated registers. Do more with Job Link™ probes!

Powerful Wireless Signal Strength
- Up to 350' wireless signal
- Powerful enough to go through most walk-in coolers and freezers
- Directly transmits to your mobile device

Rapid Rail™ Sensor Advantages
- Stabilizes in under 5 seconds
- Beeper and LED indicate accurate connection
- The Rapid Rail™ sensor uses pipe to complete circuit so ambient conditions don't affect the measurement
- Narrow jaw connects in tight spaces and on irregular pipe shapes

Reliable Pressures Regardless of Location
- 45° angled fitting easily connects in tight spaces
- Pressure sensors are accurate at any elevation
- Calibrates automatically when powered on

Configurable Psychrometric Testing
- Probes measure return and supply for grilles and registers
- Place at multiple locations based on system requirements
- Long flexible probe with sliding magnet for easy placement on system
- Narrow tip fits at 3/8" holes or larger
- Real time enthalpy and delivered BTUs

SPECIFICATIONS

Wireless Charge and Air Test Kit
JL3KH6

Flex Psychrometer Versatility
The narrow flexible probe with magnetic hanger gives you the power to get air temperature hands-free with confidence. Place probes in critical locations based on system needs with long range wireless signal.

The Job Link™ App Advantage
Send live measurements directly to your mobile device up to 350' away and see how the indoor and outdoor units are working together. Email a professional report with your company details and any job notes.

DO MORE

Quick-Access Case
Store the probes safely in the lined padded case. Quickly pop open the top and set up your tools.

Wireless Charge and Air Test Kit
Job Link™ Probes
JL3KH6

- 350' Range
- iOS® and Android™
- Water Resistant
- Email Reports
- Instant and Accurate Pipe Temps
- High/Low Side Switch and Indicator
- Connect Directly to Mobile Devices
- Quick Access Protective Case

Rapid Rail™ Sensor Benefits
The patent pending Rapid Rail™ sensor is lightning quick and accurate even in hot and windy conditions.

The LED and beeper indicate when you have an accurate connection with the pipe.

RIGHT STUFF

45° Angled Pressure Fittings
Connects easily in tight places and odd angles.
